Directory of Labor Offices in State and Federal Government

U.S. Department of Labor

Employment Standards Administration

Office of State Liaison and Legislative Analysis
Division of State Employment Standards Programs
Bulletin 177 (Revised 1988)
ESA 1437

PREFACE

This Directory lists State and Federal governmental offices and agencies which are responsible for the performance of labor or labor-related functions. It does not include agencies below the State level.

In the preparation of the directory, the term "labor office" has been used in its broadest sense. Included are primary departments of labor, as well as other separate commissions, boards, or agencies with responsibility for such programs as wage and hour; child labor; industrial homework; licensing; inspection; statistics; employment services; job training; apprenticeship; unemployment compensation; regulation of private employment agencies; equal employment opportunity and human rights; labor-management relations; mediation, and arbitration; occupational safety and health; mine safety; workers' compensation; and vocational rehabilitation. The primary labor

agency in each State frequently exercises major responsibility for labor functions. But the full scope of its program and the statutes it administers cannot always be determined from the agency listing, except insofar as program duties are reflected in the title of each subordinate unit.

Parenthetical explanations have been added wherever the name of an agency does not describe its labor function.

All entries were submitted to the appropriate authority for verification. The Division of State Employment Standards Programs welcomes being advised of any changes or additions for use in future revisions.

The directory was prepared by Sandra W. Hamlett under the general direction of Sylvia Weissbrodt, Director, Division of State Employment Standards Programs, Employment Standards Administration.
